This was the first election held under our recently amended election rulings. Did it work? We think so.

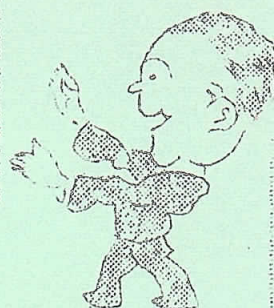

You witnessed one of the grandest demonstrations of mass campaigning ever presented to the membership of any Yacht Club in the country. It was clean. It was fun.

Nine good men were defeated but, watch out for those men in the years ahead! There are a few bugs in the amended rulings and we know of one amendment that will be offered at the Spring Meeting. BUT...a pattern has been set and this sort of thing IS GOOD FOR THE BUCKEYE LAKE YACHT CLUB.

By all means, plan to attend this Halloween Party, Saturday evening, October 29 and.... remember....NO GUESTS....PLEASE.

Mary Miller, President.

HAUL OUT TIME...is just about here. It presents the usual problems but if a fellow follows a few basic rules...it will save him a lot of work, come Spring.

One thing is a 'must'. When you haul your boat, give it a good scrubbing. Use any one of the popular detergents on the deck and top-sides and, by all means, use some steel wool plus a lot of strong arm stuff on the bottom. If you will spend one hour doing this when you haul your boat, it will save many hours next Spring.

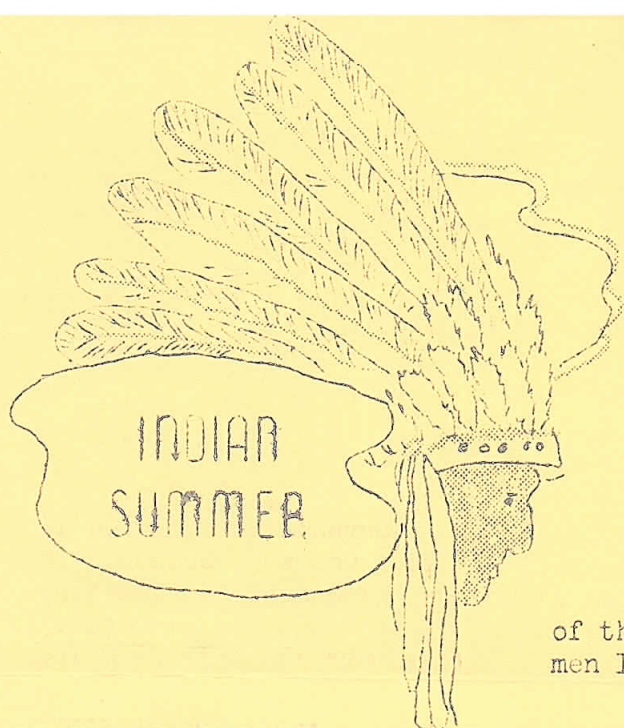

Proper storage is another important thing. Most boat owners prefer to store their boats OUTSIDE. Outside storage is best particularly when the boat is fully protected by a good 'tarp' and well ventilated. When so protected, the ice and snow IS GOOD for the boat. Any yard master will confirm this. NEVER store your boat in a heated room, that is one sure way of ruining a boat RIGHT NOW.

Your mast should be stored inside is possible and supported at 8 or 10 foot spacings. Store in a dry, cool place. During the winter, check all mast fittings and rigging, it pays off. All mast tangs, spreaders, fittings, etc should be checked and replaced if necessary.

Coil your line and store in a dry, cool spot, don't leave them on the boat.

Be sure your boat is well supported while in storage. Many boats are ruined by improper and careless shoring.

DEDICATION OF FLAGPOLE

On Sunday, September 18, 1949, Past Commodore Bruce Crompton dedicated the flag pole erected by Past Commodore, R.W.McAllister in honor of his father.

In his response, R.W.McAllister, Jr, said, "I dedicate this flag pole to the memory of my Father, your late friend 'Mac'. May the foundation and pole remain stout and true and may our proud colors ever wave over B.L.Y.C."

Mac deserves a lot of credit for the erection of this tribute to his Father. It is nice to have men like him enrolled in our Club.

WE GET OUR NECK OUT.....Prior to the recent election of officers, we published a run down of the different candidates and, as usual, got balled out for making some mis-leading statements. Among the many complaints was one from Ed Finneran who ran on a platform of 'sin'. He came boiling in our office and started thumping the desk with the statement that, by Gad, he didn't run a foundry (as reported in our sheet) that he was a forger and that there was a helluva difference between the two. He further stated that any old man could run a foundry like Ray Fisher, Sr., that all he had to do was to melt some iron and pour the stuff in a hole. But a forger, ah, that's different...that requires a man with brains, an artisan, a man with supreme intelligence. Well, we learn something every day and we herewith apologize for our lack of information on the metal industry.

A FEUD is in the making. We refer to the brothers, Roy and Jim Poston. Those guys are starting a war. Roy bought a gaff headed Kay and started racing the thing, did pretty well too. Then, Jim, the brother got interested and bought a new Kay, (he has damned good taste in wimmen) and the battle is set for next year for Roy is also getting a new Kay. Watch the fur fly in the Kay Class next season. Things will happen when the Poston boys go to the post, come post time next Spring.

BOWLING... A bowling team has been sponsored by B.L.Y.C. through the efforts of Newt Davis and it looks as if this bowling interest will be permanently revived. The recently reorganized team presently consists of Bob Henery, Gus Schell, Ed Finneran, Mel Dressel, C.E.Smith and Newt Davis. They bowl every Thursday, 6:15 PM, at the Broad-Olympic. If interest continues, another team may be added next year.

OLD BOB BARTLING is about to become a grandpappy....that is, in a year or two. You see, it's this way....Mary Ellen, his darned good looking daughter has got herself engaged to a nice young feller by the name of Tom McCann, 1240 Wyandotte Rd, Columbus. That means that, come marriage day, Old Bob Bartling will have to give his daughter away...and Old Bob Bartling just don't like to give ANYTHING away. It's sure Hell to get old and miserly. Our best wishes to Mary Ellen and our sincere hope that Old Bob Bartling will recover from the shock.

A NICE GIRL called our office the other day and said, "Finn proposed to me last night and I'm sore at him." We asked, "What makes you so mad?" Said the sweet young thing, "You ought to have heard what he proposed!"

RUSS LUCHTENBERG was recently elected Vice President of the International Lightning Class Association. A mighty fine honor indeed.

"STINKY" JOHNSON...Rumors are floating around the island to the effect that Woody Johnson is not the true father of 'Stinky'. This raises the question, If not Woody, just who is the pappy? Annibelly won't tell so it will be downright interesting to watch 'Stinky' grow up and assume the characteristics of his presently unknown father. Who knows?

CHARLES SCHULTE is having trouble with bats in the boat house. Seems like these critters hang over his boat, up side down, and use his poop deck literally.

So-Long.....Harry Nation
