Our Story

Ross Kirk

COMMODORE ROSE MCENTIRE

Happy Valentines Day Members!

BLYC loves you so much, we are celebrating Valentine's Day twice! We are having a Special Dinner on Valentine's Day with, an excellent special menu and soft dinner music and then we are celebrating again on Saturday, February 17th with a Dinner/Dance, and a second special menu! Grab your sweetie and come for both events!

This winter has been a true winter, with very cold weather, frozen lake, and snow! The lake has embraced this, and is alive with activity and fun! Whether you have been out playing in the snow or if you want to watch people having fun in the snow and cold — the Club is the place to be! Always friendly faces, comfy food, and your favorite beverage awaits you!

Winterfest was again a great event and a great boost to revenue for the Club. We appreciate the work of the Buckeye Lake Region Chamber of Commerce

for sponsoring this event — each year is bigger and better than the one before! Of course, the Yacht Club was the best view of the fireworks on the lake, and from that point on, for the rest of the day... we were off and running! I want to thank all the members who volunteered and helped the staff make everything run smoothly. The staff, once again, did an excellent job!

There is still snow on the ground, but your board members are looking towards spring and planning activities and events. There is a lot of excitement about sailing, getting the Sunday races back on the water, generating new interest in sailing, and getting our kids and grandkids active in our sailing program! Plans are being made for summer parties on the porch and at the pool, of course! If you have suggestions, please do not hesitate to share them with the board! The fun continues all year round at *your* BLYC!

See you at the Club!

Commodore Rose McEntire

Wine & Painting

Saturday, February 3

Cost - \$20.00

includes all materials, instruction, a glass of house wine or well drink, and snacks

We will be painting on tiles which can be used as a trivet or a plate stand

PLEASE RSVP — (740) 929-9941

ENTERTAINMENT

- Governor Mark Hedman

The Holidays are over and winter is upon us but don't let the winter blues get you down. Come enjoy one of the club favorites — the annual **Mardi Gras Party** at which the **Mike Roberts Band** is playing February 10th. If you can't make that, remember our **Speaker Series** is back at the club! First one for this month is called Pet Rescue given by Craig & Gloria Goodwin on Thursday February 1st and the second one with a topic of Heart Disease by Dr. John VanGilder on Thursday February 15th. Last but not least, our BLYC Historian, Steve Harris, will be speaking on The Early Days of BLYC. If you can't make any of those, try to make one of our Valentine's events. Saturday February 17th will be our **Valentines Dinner/Dance** with **Dawson Cooper** for entertainment and on Valentine's Day, February 14th, we will have a special **Valentine's Dinner** prepared by our very own Chef Josh Daniels with **Dave Bott** for entertainment. Also this month, we are doing a paint class with wine and a snack on Saturday February 3rd at 1:00 pm.

Finally don't forget that BLYC offers you a number of opportunities for hosting your parties, events, business meetings, etc. — the Commodores' Lounge, the Fireplace Room, Cupola Lounge and the Library upstairs. This is your club! Let us know how we can meet your needs.

Stay Warm!

Mark Hedman
Entertainment

BAR & KITCHEN

- Vice Commodore Don Dick

The deep freeze of a real Ohio winter is upon us, but things are still plenty warm at the BLYC! Thanks to the support of our members, we are very fortunate to be able to keep our restaurant and bar open year-round. Not all Clubs enjoy that same benefit. If you haven't been out to the Club lately, why not stop by and check it out? The views from the dining room are still stunning and you can relax by the fireplace for an after dinner drink and casual conversation. Chef Josh and his crew continue to provide us with great weekly features in addition to our regular winter menu.

January's Employee of the Month is Chris Logan. Chris joined our staff as a bartender this past summer and has become a familiar sight at the Club. Did you know?... he's been the creative mind behind our weekly drink features the past couple of months? He is truly a great addition to the BLYC family — **Congratulations Chris!**

We are quite fortunate to have the great staff that we have at BLYC. The entire kitchen and wait staff has really stepped up and made our parties and events great this winter. We are gearing up to be the best Club in the area! Great Food! Great Entertainment! And... get ready for some exciting new events and activities in the coming year! It's a great time to be a part of this great Club.

BUCKEYE LAKE 2030 UPDATE

Thursday, March 22
Mike Fornataro
Executive Director, Buckeye Lake 2030

THANK YOU!

Dan Bosworth & Mike Smith

for installing the new grease interceptor on
our water system in the Clubhouse.

CONGRATULATIONS

January Employee of the Month Chris Logan

If you see an employee going "above & beyond," or they do something to make your time at the Club special, please let a board member know so that they can be recognized.

JUNIOR TRAINING

- Governor Mike Bruckelmeyer

The BLYC junior training program is offering the **ODNR Powerboat License Class** on **February 24, 8:00 am-5:00 pm** at the Club. This free course is being offered to ALL boaters on Buckeye Lake. BLYC Members and their Children and Grandchildren (12 years or older) will have the first opportunity to register. Please fill out the online form or call me at 740-503-0386 to secure your reservation. **SPACE IS LIMITED** to 50 participants — all reservations must be received by February 20th to assure your spot. *This class is not just for the young boaters!* Everyone can benefit from updating their knowledge of boating and safety. Who knows, you may even get to save some money on your boating insurance!

At the conclusion of the class, participants will take a test, graded on site and, if passing, they will receive a certificate of completion and card from ODNR. Lunch is available separately from the BLYC menu.

In other news, the junior training parents and youth had an excellent planning meeting on January 13th. A few highlights from the meeting include dates for our **Sailing Camps** (June 11-15 and June 25-29), the **Youth DIVE-IN Movie Nights** by the pool (June 15 and June 29) and our **SCUBA Diving Discovery Class** (July 7).

The junior training program will have an extraordinary day on May 27th. We will be hosting our **Junior Sailing Alumni Day and Fundraising Dinner**. Entertainment that evening will be the "**BLYC LIP SYNC BATTLE**" so get your Act together, rehearse and be ready to have a lot of **FUN**.

We have a follow-up meeting scheduled for January 26th at 6:00 pm at the Club. Watch the *Log* and website for updates!

Fair Winds and Following Seas!

Mike Bruckelmeyer

DOCKS & RENTALS

- Governor Bruce Ames

February... Yuck!

The only good thing about February is that it is the shortest month of the year!

We are optimistic about our use of the same docks we had access to last year. If you had a dock at Boat Boys last season and wish to keep it for 2018, please let me know via the BLYC website. I currently have a waiting list for these docks, but if you want added, please fill out the application on the website.

We have provided a very preliminary drawing to the State showing dock expansion on the island. Hopefully we will get a positive response so we can move forward with pricing. More to follow...

As always, I look forward to seeing everyone at the club. Let's have a great winter enjoying each other's company.

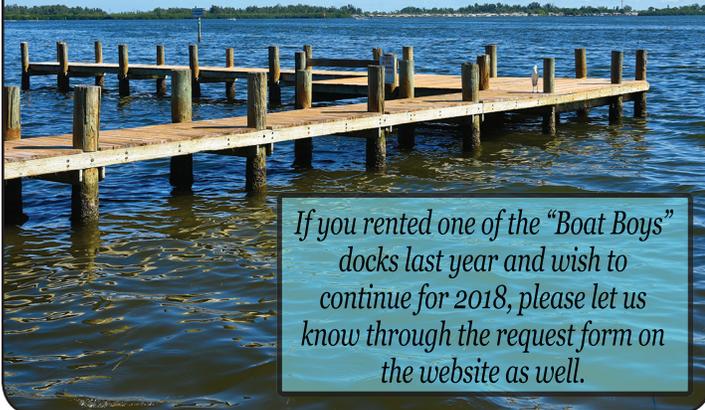

Bruce Ames
Docks & Rentals

Submit Your Rental Request Online

(Depending on location, a waiting list may apply)

www.buckeyelakeyc.com

Select "Docks & Rentals" under the "Our Club" tab

If you rented one of the "Boat Boys" docks last year and wish to continue for 2018, please let us know through the request form on the website as well.

Whether you spend a day, a weekend, or live waterside at Buckeye Lake - you will find life here to be very special. Buckeye Lake is in a renaissance, and we're proud to help pave the way in this new era of lake life.

MEMBERSHIP

- Governor Brian Thom

Thank You! We had a great Membership Rush Party in January and it was wonderful to see so many people interested in learning more about BLYC and joining the Club. It was a fun evening of socializing and the Lakeside Trio, once again, did a excellent job entertaining us.

A number of you took advantage of our membership incentive over the past two months and brought friends, family, and guests in as new members to BLYC. Thank you for helping to perpetuate our membership and keep the Club going. BLYC may be the "best kept secret" on the lake, but why? Share all of the fun and enjoyment that you have at BLYC with your friends! The more the merrier.

By now, you have received your 2018 dues notices in the mail. Please make every effort to renew your membership in a timely manner. As you can understand, the winter is our slow time in the bar & kitchen operation and timely payment of membership dues helps us to keep the operation running smoothly without the need to incur extra costs by borrowing money.

Brian Thom
Membership

BLYC AUXILIARY

Congratulations to Valerie Mockus who won the annual dues drawing on New Year's Eve and thank you to all who participated in this fundraiser. By doing this, you make it possible for the Auxiliary to fund a number of improvements around the Club annually and host the BLYC Members' Children's Christmas and Easter Party.

Check the BLYC website, your email, Facebook and/or Twitter announcements for a special Auxiliary meeting in March and also the upcoming Easter Party for the children — dates to be announced soon.

If you haven't been to the Club lately, invite a friend to join you to attend the Speaker Series on Thursday nights, enjoy Happy Hour or one of Chef Josh's special dinners while enjoying stunning lake views. Winter is the "hidden gem" season at the Club and many of us consider it one of our favorite times of the year.

Keep warm and see you at the Club!

Jeff, Susan, Stephanie, & Julie
Your 2017-18 Auxiliary Board

RACE & REGATTA

- Governor Chuck Gleich

Sailing is back at Buckeye Lake!

Have you seen the sailors out on the ice? BLYC members Chuck Bendig & Dave Paligo have been out on Chuck's 2-seater ice boat this past month and rumor is that the Harris boys will be getting out their DN iceboats soon too. Chuck is really into it. He's even traveled up to Lake Erie to do some iceboat racing! One nice thing about a cold winter is being able to enjoy our lake in a new and different way. I've heard that we've even had some snow "kite sailors" out there too! Those things are *really* cool!

Thank you to everyone who took the time to fill out our online sailing interest survey the past couple of months. The results have been positive and there is definitely still quite a bit of interest in sailing at Buckeye Lake. Over the next few months, we'll be putting together a plan for the 2018 season. If there's one thing that we learned last season, it's that, even though the lake is lower than usual, we still have enough water to get out and enjoy sailing again. My board responsibility this year is "Race & Regatta," but sailing is much, much more than just racing. Our main goal this year will be to introduce more members to the *fun* of sailing — sure that will hopefully include some racing, but we want to also find other ways to get people involved. Some ideas that we're working on is to pair up "newbies" to the sport with our more experienced sailors to get them out on the water — building on the great efforts of Chuck and Dave and their "Thursday evening sails" from last season. Steve Harris has offered to do a (hopefully) weekly "Intro to Racing" session on Sundays prior to racing for those new to the sport with the intent to make racing less "technical" and, perhaps, less intimidating. Ideas keep coming and we're looking for more. Please share your thoughts and ideas with us. Plans are still very preliminary, but we want to get *you* involved. The first BLYC event, over 110 years ago, including sailing — let's keep that tradition alive! Look for more details in future issues of the *Log*.

HOUSE & GROUNDS

- Governor Charlie Campbell

The temperature is freezing enough to layer Buckeye Lake with ice and snowing so much that Frosty Snowmen have been seen everywhere. But, with all the incimate weather, your maintenance staff has kept the walkways clear to keep the club open. Thanks to them! The ODNR dam remediation project is continually moving forward. They now are replacing the sidewalk and removing the old steel seawall. This is important to know as crossing the dam along with you is heavy equipment. Be observant and please cross with caution.

We experienced a small plumbing problem, luckily at the end, the night of the New Year's Eve Party resulting in a minor backup. Thanks to Dan Bosworth and Mike Smith we have installed a new grease interceptor which should assist in eliminating anymore "emergency" mishaps.

We have submitted a permit request to ODNR for Phase 1 construction of our new seawall. When granted by ODNR, Cottage Maintenance and Construction Company (CMCC) will begin the work. Until next time, be safe.

COMMUNICATIONS

- Rear Commodore Mark Pyle

What a wonderful January for winter fun on and around the lake. The cold temperatures saw the return of a variety of winter sports out on the ice, all within the view and warmth of the Buckeye Lake Yacht Club. We look forward to another fun filled month in February as we enjoy longer days in the march toward spring. If you've been to the Club in the worst of the weather, a noticeable change from prior years is the protected stairs and handicap lift. This welcomed improvement allows our staff to better keep the area free from ice and snow. Please continue to use extreme caution when walking between the parking lot and the Club because no matter how much our team shovels and treats the surfaces, the continuous freeze and thaw creates slippery surfaces. I would also like to remind everyone that the Club has an AED mounted on the wall near the back exit and double kitchen doors should the need arise.

In this expanded version of the *Log* you will notice extra pages to accommodate advertising. We've been successful in procuring a couple of ads to give everyone a flavor for the size and placement of the ads. If you would like to place an advertisement for your business for six months or a year please contact either myself or Steve Harris and we can provide the guidelines for size, cost, and graphic requirements. This information is also available on the BLYC website. The intent of expanding the *Log* and bringing in advertising is two-fold. First, we wanted to create a place where members can look for goods and services provided by other members to support each other. Second, we were looking for ways to cover the cost of publishing the *Log* each month and possibly enhance the look. The ads are limited to member-owned businesses or businesses who employ our members and not directed to unaffiliated businesses or organizations. Our initial goal is to secure enough ads to allow for two additional pages each month.

LOOKING AFT

- P/C Steve Harris, BLYC Historian

The Back Basin and Old Bridge...

There's been a lot of talk lately about the dam remediation project and access to our island. Obviously, we lost our bridge a couple of years ago when the contractor came through with the stability berm. We have a temporary bridge for now, but when will we get a new bridge and what will it look like? We all became accustomed to seeing our entrance with the large, black iron gate donated by the Commodores' Association several years ago, and the long, wide concrete walkway leading to the island. The new one will most certainly be different, but the entrance has changed many times over the years. When it's all done, I'm willing to bet that new one will, likewise, present a grand entrance to BLYC.

The following article appeared in the May, 1985 issue of the Log — written by, then Historian, Commodore Frank Foster — describing what was likely the first bridge to Watkins Island...

You are standing on the north side of the island where there will be a Laser dock. You look to the northeast, past the bridge to the cottage to be occupied by Commodores Mike Hein and Bob Dye. But they are not there yet and there is no Laser dock. The year is about 1911. Their cottage was there, but they weren't. Alice Rosebragh was there, as a little girl. She told me that she had some pictures and remembered playing on this bridge as a little girl. I stopped by and talked with her briefly and hope to do so again. She is a lovely lady with an interest and knowledge of Buckeye Lake history. This picture was loaned to me by Warren Wyant.

Alice reports that, as a little girl, she lived in the same house which she now lives in at the entrance to the parking lot. That

house is visible in the background of the picture. She and her friends loved to go over this bridge and climb up and down the steps. She said that the fishing was very good in the water that you see in the picture. However, that was before the steel retaining wall.

Can you see the gas pump right in line with the near corner of the marina? She has a picture taken from the opposite side of that gas pump showing the operators at the pump and in the background showing the edge of our island. The island was rounded and, of course, lower since this was before it was raised. The lower concrete wall was there but, of course, the lift and the finger adjacent to the lift were not.

How do you suppose gasoline was delivered to Sayre's Marina and the other marinas around the lake? Well, Alice says that at one point it was delivered by gasoline boat and yes, she has a picture. Along the bow it says The Standard Oil Company. A relative of hers went to Thornport and filled five gallon containers which he loaded into the boat. He then delivered them to the marinas.

Notice the small boats with the small motors in the picture. Alice tells me this

was a principal means of transportation around the lake along with the railroads. She recalls as a little girl taking a trip to Millersport by railroad and the thrill of coming back through the lake by such a boat.

You can see a portion of the stone towpath retaining wall. The same wall is still visible in front of Eastport, although the top portion was knocked off by the State. The marina of J.T. Haynes and Sons is clearly visible. Mr. Haynes was a member in 1906 and his name is listed in the 1906 directory which I published in an earlier *Log*. It stood right on the lot now owned by the Yacht Club across from the bridge. It appears to be of the same vintage as the current shop of Sayre Marine. I will need someone else to tell me the kind of boats I am looking at.

(Editor's Notes for 2018: Many of the landmarks mentioned by Commodore Foster are no longer present - the Hein/Dye cottage, the Laser dock, and the lift for example. Alice Rosebragh's house now belongs to BLYC. Commodore Foster's handwritten notes and other photos in the archives suggest that the boats in the picture are Mullins Steel Boats which were made in Salem, Ohio and very popular in the early 20th century)

DUES ARE NOW DUE

Help us to control costs and keep your membership affordable

Membership dues and rental fees help us to maintain cash flow during the slower, winter season at the lake. Your timely payment will assist in controlling costs and help keep our operation running smoothly and efficiently.

Please contact the Club office with any questions.
